

Furn Shop - Furniture Management App

Abstract:

The Furn Shop is an innovative furniture management app designed to facilitate the buying and selling of furniture. Sellers can showcase a wide variety of furniture products, and customers have the flexibility to make payments either at the time of purchase or through installment plans over a specified period, typically 2 to 3 years. The app also introduces rental options, allowing customers to rent furniture with a small payment.

1.Product Catalog and Showcase:

Description: Displays a comprehensive catalog of furniture products, showcasing a wide variety to cater to different customer preferences.

2.Customer Accounts and Profiles:

Description: Allows customers to create accounts and profiles where they can manage their preferences, track orders, and view their purchase history.

3.Payment Options:

Description: Offers multiple payment options, allowing customers to make immediate payments at the time of purchase or opt for installment plans over 2 to 3 years.

4.Installment Management Module:

Description: Manages installment payments, providing a systematic approach for customers to fulfill their payment obligations over the agreed-upon period.

5.Rental Services Module:

Description: Introduces a rental option, enabling customers to rent furniture for a specific period by making a smaller initial payment.

6.Shopping Cart and Checkout:

Description: Allows customers to add selected furniture items to their shopping cart and proceed to a secure checkout process for payment.

7.Rating and Review System:

Description: Incorporates a rating and review system, allowing customers to provide feedback on purchased furniture items and share their experiences.

8.Search and Filter Functionality:

Description: Provides a search and filter feature for customers to easily find specific furniture items based on categories, styles, or other criteria.
